

MICROSOFT LICENSING

ASSESSMENT

Our Microsoft Licensing Assessment helps organizations reduce Microsoft spend by 5-10% and optimize license management.

IN 2 WEEKS...

- ✓ Full inventory of your Microsoft licenses, including active, inactive, perpetual, and cloud-based entitlements
- ✓ Usage reporting by user and license type to identify underutilized assets
- ✓ Strategic recommendations to right-size, reassign, and optimize your overall licensing investment

SEE WHAT YOU'RE PAYING FOR

1 Consult

We collaborate with your team to understand current usage, confirm compliance considerations, and identify the priorities that will drive the most value and efficiency.

2 Analyze

With secure, temporary access, we gather tenant data across licenses, activity, and audit details to evaluate usage patterns, compliance risks, and optimization opportunities.

▶ Insights

We walk your team through the complete license inventory, usage insights, and tailored recommendations to optimize Microsoft license spend.

CLEAN UP YEARS OF LICENSING SPRAWL

Gain Clarity

See your full Microsoft 365 landscape – what's deployed, what's used, and what's wasted. Hidden sprawl becomes visible so you can take control of inherited, unclear, or overly complex licensing environments with confidence.

Plan Ahead

Turn insights into action with clear guidance on your current license mix, future-ready options, and strategic planning for budgeting, upgrades, and expansion.

Manage Costs

Reduce licensing spend by right-sizing entitlements, improving compliance, and increasing flexibility, ensuring your investments align with actual usage and organizational needs.

LICENSE SMARTER.

Uncover hidden savings in your Microsoft spend.
