

Lite Security Assessment

- ✓ **evaluate** and quantify maturity based on NIST framework and 120+ interview questions
- ✓ **benchmark** your cybersecurity maturity
- ✓ **roadmap** of remediation projects developed in consultation with certified security professionals

In as little as
10 days

Advance your cybersecurity strategy and posture

Develop your security strategy roadmap

Assess your current security maturity, understand gaps, prioritize actions, and understand the estimated costs needed to strengthen your defenses.

Improve incident response

Enhance your preparedness for attacks by evaluating your current state and identifying key considerations for robust response plans.

Understand cyber insurance compliance

Whether purchasing or renewing cyber insurance, we ensure you meet policy requirements to secure your coverage and remain compliant.

Actionable security insights in just 2 steps

1

Consult | 30 min

Meet with our security professionals to understand your needs and goals from the assessment.

2

Interviews

Following the NIST framework, we will conduct in-depth interviews with key stakeholders to uncover critical insights into your current security practices.

Insights

Our experts will review the findings with you, providing a measurable assessment of your cybersecurity maturity, discussing remediation actions, and presenting a prioritized security roadmap for improvement.
