# Microsoft Copilot Readiness & ROI Assessment

In as little as  
**1 week**

- ✓ **Readiness** evaluated and gaps identified across various AI disciplines
- ✓ **ROI analysis** based on relevant use cases
- ✓ **AI roadmap** detailing adoption strategy, required investments, implementation process security gaps, training requirements, and more

## Streamline your path to AI with expert guidance

### Build the business case

Inform investment decisions by developing adoption scenarios grounded in relevant use cases, ensuring a clear understanding of the required investments.

### Strategize adoption

Leverage the expertise of Microsoft Copilot specialists to assess your current infrastructure and workflows, helping develop a tailored plan for implementation.

### Reduce implementation risk

Identify potential challenges in skills, security, processes, and systems, and gain actionable strategies to mitigate them.

## Unlock AI success in just 2 steps

### 1 Consult | 30 min

Meet with our Microsoft Copilot experts for a 30-minute consult to align assessment findings with your specific goals and objectives.

### 2 Interviews

We will conduct interviews with key stakeholders to pinpoint workflows and processes where Copilot can drive improvements and assess the relative impact.

### > Insights

Our experts will guide you through projected ROI, recommend optimal adoption strategies, and provide a comprehensive roadmap from your current state to full implementation.
