# Microsoft Licensing Assessment

- ✓ **inventory** all Microsoft licenses (including perpetual and cloud licenses)
- ✓ **usage** reporting by user and by license type
- ✓ **optimization** recommendations to right size, transfer, and refine licensing strategy

In as little as  
**2 days**

## Navigate Microsoft licensing for optimal results

### Need to reduce IT costs?

Our assessment help customers save between 5-10% by uncovering underutilized licenses, allowing you to right-size without sacrificing functionality.

### Been using Microsoft for years?

Gain visibility into all accumulated licenses and get help streamlining management, retiring outdated licenses, and simplifying your licensing strategy for the future.

### Planning to move to the cloud?

Understand license mobility and review your current licenses to ensure they are optimized for the cloud, helping you avoid unnecessary expenses.

## Unlock powerful insights in just 2 steps

### 1 Consult | 30 min

Meet with our Microsoft licensing experts for a 30-minute consult to understand the current state of your Microsoft environment.

### 2 Deploy

Our team will guide you in setting up secure, temporary remote access to your environment to enable the collection of usage metrics.

### > Insights

Our experts will deliver a comprehensive license inventory with in-depth usage data and tailored recommendations to help optimize your licenses – typically saving 10% of Microsoft costs!
